Welcome to

Small LATEXpresentation

Henrik Kramselund he/him han/ham hlk@zencurity.com @kramse

Slides are available as PDF, kramse@Codeberg

small.tex in the repo security-courses

First slide

Step 1: install TEXLive https://www.tug.org/texlive/
or other LATEX, and Latexmk https://mg.readthedocs.io/latexmk.html

Step 2: git clone https://codeberg.org/kramse/security-courses

Step 3: Make sure TEXINPUTS can find the texfiles, add to .bashrc or .profile:
`export TEXINPUTS=/home/$USER/projects/security-courses//:`

Step 4: Update your `~/.latexmkrc`

Finally Go to `security-courses/texfiles` and run `latexmk small.tex`

another option is to use https://www.overleaf.com/
The easy to use, online, collaborative LATEX editor

You can do PDF presentations now, congratulations
